

NOTICE FROM THE VILLAGE OF LYTTON

BOIL WATER NOTICE

July 6, 2022

The Village of Lytton advises the public that Well #2 is out of service, therefore the Village has switched to Lytton Creek. The Village is in the process of completing UV system repairs therefore with the turbidity of Lytton Creek still trending high we are required to post a **Boil Water Notice**. The water supply for locations listed below are under **Boil Water Notice** for the time period of **July 6th, 2022 until further notice**.

This notice affects all users, however, people with weakened or undeveloped immune systems are most at risk. This includes: elderly people, pregnant women and their unborn, children under the age of 2, people with AIDS, cancer, diabetes or kidney disease and people being treated with immune-suppressing medications. As a precautionary measure, water users are advised to bring water to a rolling boil for at least one minute before using it for drinking, making ice, brushing teeth, food preparation, etc.

AFFECTED AREAS

Loring Way, Ponderosa and Kent, IR17, IR18 and the Village Town site

DURATION OF NOTICE

This Boil Water Notice is effective July 6, 2022 until further notice

QUESTIONS

If you have any questions concerning this advisory, please contact:
Village of Lytton at 778-254-5000 or
Interior Health - Public Health Protection at 250-851-7340 / Option 1

PLEASE SPREAD THE WORD TO YOUR NEIGHBOURS

The Village staff are reaching out to all those affected by door to door, where possible, posted information on Village's Website and Facebook page. Please share this information with others who drink this water, in the affected areas.

Michael Baker, Chief Administrative Officer
