

NOTICE:

WATER RESTRICTIONS

AS OF JUNE 3, 2022

A Water Quality Advisory was issued June 3, 2022 as the Village water system is currently only operating on Well #2 due to both turbidity and equipment failure at the Water Treatment Plant.

The pump for Well #2 is currently working 20 hours per day which is unsustainable and we need to reduce water consumption.

Therefore, effective June 3, 2022, the following water restrictions are in place for the Village of Lytton:

- Watering of lawns is not permitted;
- Hoses should only be used when fitted with a restrictive device; and
- Gardens and flowerbeds may be watered with a hose fitted with a restrictive device.
