To whom it May Concern,

Re: BC Trans-Canada Highway 1 - Overnight Closures at Tank Hill, July 8th, 2025

The B.C. Ministry of Transportation and Transit (MOTT) will be implementing an overnight closure on Highway 1 at the Tank Hill site, located 14km east of Lytton, BC., to facilitate the placement of deck concrete on the new structure over the CPKC Railway. The overnight closure will be for 9 hours as follows:

- July 8, 2025: 12:01AM to July 8, 2025: 9:00AM (PST)

During the closure period, hard closures will be in place at the intersections of Highway 1 & 12 and Highway 1 & 8. Checkpoints in Lytton and Spences Bridge will be maintained to provide travelers with information about their options. Local traffic will still have access to the Gladwin Area and Nicomen River Road.

All other traffic will be detoured via Highway 12 and Highway 5, with guidance provided through portable message boards, dynamic message signs (DMS) in Lillooet and Ashcraft, and real-time updates on [DriveBC](#). Drivers traveling between the Interior and the Lower Mainland are encouraged to use Highway 3 or Highway 5 as alternative routes. Emergency vehicles and school buses will be provided access throughout the planned closures.

MOTT appreciates the cooperation and understanding of local communities and residents during the closure.

Should you have any questions or concerns on the closure, please contact me directly.

Sincerely,

Brian Taylor
