## How to request water service

---

Reconnection to the Village of Lytton (Village) water system is available to residents and businesses, as you begin to rebuild your property.

### Upgrades to water system in progress

The Village is working on upgrades to the water system, which will continue over the next year or two. Once your water service is connected, the Village will try to limit service disruptions; however, some interruptions will be required for upgrades.

The Village will aim to provide you with seven days' notice of any planned disruptions. In the event of any urgent repairs or emergencies, the Village will provide information on service disruptions through Facebook, the Village's website, on site, and in person, whenever possible.

### Residential water connection

The Village will provide water main service to your property line with a  $\frac{3}{4}$ " service to the curb stop at no charge to you. If you wish to request a different service, an estimated cost will be provided by the Village for this alternative service.

The turnaround time for service is 30 days unless issues are identified during the Village's site-specific assessment.

### Commercial water connection

The Village will assess on a property-specific basis, depending on the intended commercial use.

As with residential service, a  $\frac{3}{4}$ " service to the curb stop will be provided free of charge. The cost of any changes to this service will be estimated by the Village. The turnaround time for service is 30 days unless issues are identified during the Village's site-specific assessment.

### Process

1. [Complete the application for water service](#). Considerations for water service include Ministry of Transportation and Infrastructure (MoTI) and archaeology requirements and any necessary BC Hydro communication or coordination.
2. Public Works will complete a site-specific assessment to confirm availability and timing of service.
3. Scheduling for the connection will be confirmed.
4. Connection takes place.

### Contact

Email Public Works at [publicworks@lytton.ca](mailto:publicworks@lytton.ca) if you have any questions.
