January 24, 2021

Statement regarding Village of Lytton staff changes

After careful consideration, the Village of Lytton has chosen not to renew the current Community Recovery Manager's contract, effective January 21, 2022.

The position of Community Recovery Manager was appointed with in collaboration with Emergency Management B.C. on November 3, 2021, on a temporary basis to assist the Village with its immediate recovery needs.

The Village is completing a careful review of the Community Recovery Manager model to ensure it's the correct fit for the Lytton community. Once the review is complete, the Village will transition to an updated service delivery model.

The Village has taken into consideration what gaps may come about with this change and has reallocated tasks internally to ensure that recovery efforts continue uninterrupted.

More information will be provided to residents as soon as possible.
