## Vision:

### Health and well-being for all

- Working together to improve quality of life for individuals and communities, inspired by innovation and partnership
- Committed to continue to building back services to support the community.

# Previous Services

- Private Physicians Office for Primary Care
- Home Health Services
- Public Health Services
- Mental Health and Substance Use Services
- Urgent and Emergent Services
- Medical Imaging
- Lab Services
- Assisted Living
- Community Pharmacy
- Health Connections

# How are we got to today

- Worked with local stakeholders to understand current population demands
- 1<sup>st</sup> Goal – establish access to primary care services
- 2<sup>nd</sup> goal – increase access to home support, mental health and substance use, public health
- Continue to monitor demand on health services to continue to support the staff, community and increase

# Phased Approach

Health Service	Phase 1 (Dec 2021 to present) LFN TI'kemtsin Health Centre	Phase 2 (Spring 2023) Modular Building	Phase 3 (TBD) Permanent Building
Home Health	✓	✓	✓
Mental Health & Substance Use (OAT)	✓	✓	✓
Public Health	✓	✓	✓
Primary Care	✓	✓	✓
Lab		TBD	TBD
Pharmacy			
Medical Imaging			
Food services			
Housekeeping			
Assisted Living			
Home Support			
Outreach (Seniors)			

# Key Considerations

- Stakeholder Engagement including local government, Indigenous communities and the public
- Alignment with Ministry of Health priorities
- Innovative solutions to support recruitment
- Continuing to work with BCEHS transportation services
- Consider options of Virtual Health Care
