

Rebuilding Lytton Area History

An update from Lytton Museum & Archives - April 2025

The Museum committee and three Village Council members met after coffee on Monday April 14 to discuss Lytton's museum.

Council proposes the future Museum will be housed in the planned "Village Hub" building. There will be an opportunity for our group to meet with the "Hub" architect to discuss museum space requirements before final plans are produced.

The committee will be meeting again on May 8 to discuss space requirements. At this time programs/displays/collections for the museum will not be discussed. The focus will be only on space requirements to pass along to the architect.

Because it will be some time before the actual building will be completed we have decided not to have a membership drive this year. However, we do have a museum bank account generating interest which will be needed to purchase finishings and furnishings for the new Museum. While the Village of Lytton provides the building, the Museum Commission will be responsible for all required interior finishes, display furnishings, shelving, etc. as well as office equipment and supplies.

Want to be part of our building-back? memberships are still only \$10 and of course, donations are always appreciated.

Be involved with memories of the Museum past - what did you like most when you visited the Museum? Send your happy thoughts to museum@lytton.ca
